

Adipic Acid

hexanedioic acid | CAS 124-04-9

Product identification

Product name	Adipic Acid
Chemical name	hexanedioic acid
CAS number	124-04-9
PubChem CID	196
Molecular formula	C ₆ H ₁₀ O ₄
Molecular weight	146.14 g/mol
InChIKey	WNLRTBMRJNCN-UHFFFAOYSA-N
Material type	Chemical reference material / technical compound

Material description

Adipic Acid is a aliphatic dicarboxylic acid supplied by Rexar as a chemical reference material / technical compound.

Intended use

For laboratory, analytical, chemical and method-development applications. Not for human or animal consumption. Not intended for food, supplement, cosmetic, medical, diagnostic or therapeutic use.

Reference characteristics

Structural class	Aliphatic dicarboxylic acid
Typical physical form	Solid / powder
Storage guidance	Keep tightly closed, dry and protected from light unless lot-specific supplier documentation states otherwise.

Analytical use and traceability

Lot-specific purity, water content, residual solvents and analytical acceptance criteria must be taken from applicable supplier documentation or a certificate of analysis; they are not inferred by this datasheet.

Safety note

Public supplier/regulatory SDSs commonly classify adipic acid for serious eye irritation (Eye Irrit. 2, H319). Confirm the exact supplied-grade classification against the supplier SDS.

Identity verification note

Identity data were rechecked for this revision. Where a field could not be established reliably from the reviewed sources, it has deliberately not been invented and should be reconciled against lot-specific supplier documentation.

Document control

Document	Rexar Technical Compound Datasheet
Revision	10 September 2026

Status	Reference information; not a certificate of analysis
--------	--

Disclaimer

This document is provided for chemical identification and laboratory reference purposes. It does not certify batch purity or replace lot-specific analytical documentation.
